the fine print:

Live foal guarantee LFG - provided with all breedings at no additional cost - if the mare fails to produce a live foal (a foal which stands and nurses unassisted), a re breeding will be provided in the following season with a handling fee and agistment costs payable. The mare owner must provide proof to the satisfaction of King Estate that the mare has not delivered a Live Foal and such proof must be provided within 7 days of delivery by the mare. If proof is not provided within 7 days the mare owner waives the right to any further entitlements under this agreement

Filly Foal guarantee FFG - cost \$ 150.00 (includes LFG) - If your mare produces a colt, which is subsequently gelded, you are entitled to a return breeding with a handling fee payable.

Foal Satisfaction guarantee FSG - cost \$ 250.00 (includes LFG & FFG) - If your mare fails to produce a satisfactory foal, a subsequent colt must be gelded and a subsequent filly may not be registered. You are entitled to a free re breeding.

FFG & FSG are only available if paid at time of booking for Purebred Arabian Mares, and such payment denoted in this contract. King Estate must be notified within 3 months of delivery of the foal. On completion of return service, King Estate will be considered as having completed all obligations under this agreement and the mare owner will not receive any further entitlements under this agreement. Purchase of a further guarantee may be offered at this time at the discretion of King Estate

For all Guarantees, it is a requirement that the Mare must remain at KING ESTATE until she has a 42 day PPT (Positive Pregnancy Test). Should the Mare leave prior to a 42 day PPT, the Balance is due and Payable in full, and NO Guarantee will apply.

Vet Charges All Veterinary costs relating to the semen collection and insemination, both by the King Estate Veterinarian and the Mare Owner Veterinarian, are the responsibility of the mare owner. Current fees for Collection and transportation can be quoted by Agnes Banks Vet Clinic on (02) 4588-5200

It is agreed that any courier used by Adam King/King Estate, to transport Semen, is not an agent of Adam King/King Estate, and that any delay or default by the courier will not be the liability of Adam King/King Estate.

It is the Mare Owners responsibility that the Equitainer and components are returned complete and in good order within 48 hrs of receipt by the Mare Owner or their representative.

Collection Fees. One collection is included in your service fee. Subsequent collections - \$100 + GST

In the event of any re breeding, should the stallion booked be sold or no longer standing at King Estate, 2 straws of Frozen Semen will be provided, if available, with a fee payable to cover costs of collection and storage. If Semen is unavailable or if mare fails to conceive, a further breeding will be provided to any Stallion standing at King Estate to the public. If the mare fails to conceive or fails to have a live foal as defined in the Live foal Guarantee above, the mare owner may request to substitute another mare. This substitution will only be granted with the written permission of King Estate. Should the said mare be bred to or inseminated by any other Stallion after service by the said stallion, this contact is automatically voided, and King Estate reserves the right to refuse to execute any papers necessary for the registration of any foal from the said mare.

Notice: The mare owner shall advise Adam King/King Estate immediately the mare comes into season and give 48 hrs notice for possible shipment of semen. A firm order for Semen must be made at least 24 hours prior to collection time, and preferably the evening prior to, or by 10am on the day of required collection and shipment. Semen will only be shipped at 10am Tuesdays and Thursdays. Shipments outside these days and hours may be requested, but not necessarily be made available. Adam King/King Estate cannot guarantee the collection and shipment of semen if circumstances do not permit on the day requested by the mare owner and Adam King/King Estate will be under no liability if there is no shipment.

The mare owner agrees to engage the services of an experienced Veterinary Surgeon or a qualified Equine AI Breeding Technician, during each breeding cycle of the mare so as to enable maximum fertility.

The mare owner shall have the mare examined by a licensed Veterinarian surgeon for pregnancy at 21 days and 42 days from the last insemination, and shall deliver a certificate of the result of such examination to Adam King/King Estate within 7 days of the examination. Mare must be identified on the certificate by colour, Brands and Markings.

Should the mare fail to fall pregnant after 2 cycles, with either Frozen or chilled Semen, she may (at the discretion of the mare owner) be bred naturally. If the mare fails to fall pregnant after a further 1 cycle, (ie 3 cycles in total) she must be bred naturally, or owner foregoes all fees paid. All extra costs involved, in both cases, (ie transport, etc) will be the responsibility of the mare owner.

Any Chilled Semen which is not used to breed the mare under the contract must be destroyed. Any unused Frozen Semen, remains the property of King Estate and may not be used on any other mare or in any other season on the same mare, without the written permission of King Estate. (Written Permission will only be given where a further breeding contract is signed and the appropriate fees paid. A deduction of 10% is given for the 2nd mare and 15% for the third.) Any attempt to use any portion of any semen shipped to the mare owner, to breed any other mare than said mare, shall automatically terminate all obligations of Adam King/King Estate. All Mare owner rights shall be forfeited and mare owner will be liable for all costs incurred, included breeding fees for every unapproved mare inseminated, regardless of whether a foal is produced or not.

Service Certificate and other documents will not be released until such time as all outstanding debts incurred by the Mare Owner have been paid in full to King Estate, our Vet, or any other agent or representative of King Estate. Non payment of any debt incurred within 30 days will void this agreement, at the discretion of King Estate.

The Mare Owner is required to fill in description attached and supply King Estate with a copy of current registration certificate, and any other information relating to the mare, including any previous breeding records.

A Few Notes for Mare Owners

You should advise KEI as soon as your mare comes into season so we have 48 hrs notice for possible shipment of semen. A firm order for Semen must be made at least 24 hours prior to collection time, and preferably the evening prior to, or by 9am on the day of required collection and shipment. Remember, semen will only be shipped 10am Tuesdays and Thursdays . Shipments outside these days and hours may be requested, but not necessarily be made available, so plan ahead!

For Arabian mares, it is a requirement of the AHSA that your mare be DNA tested **prior** to insemination. Your mare must also be given **AI Approval** by the AHSA which can be obtained by requesting a form - we have a limited number of forms available for you if required. It is also necessary that the mare owner complete a monthly AI report for the AHSA (A monthly report is also required from the Stallion owner)

Additional Information about your Vet

(these questions are about your Veterinarian, if you don't know the answers, please contact your Vet, as these answers are required in full)

Veterinarian Name: Practice Name:
Address: Telephone :
Address that Semen is to be shipped to: Fax:
Name of Person to Receive delivery:
Note times that delivery can be effected:

Additional Information for our Vet

All charges for Collection and shipping must be paid in advance to our Vet - you are required to ensure that this has been arranged prior to required shipment date, as Semen will not be shipped until fees are paid. As Courier charges can vary due to regional areas, you should contact Agnes Banks Vet Clinic on (02) 4588-5200 to quote and arrange payment. Alternatively, you can provide your credit card details here, to be passed on to our Vet to cover costs.

I hereby give Agnes Banks Veterinary Clinic permission to debit my credit card for costs and charges for collection and Shipment of Semen to me or my veterinarian.
